PROJECTS

Online Bank

This is a modern online banking, made by a group.

Registration Page

CRUD Application with Web API and db.json.

Exchange Page

This is a currency exchange page where you can exchange several currencies together, using the API.

Employee Creation Page

Almost the same as CRUD but more modern and also used Angular Material.

Login and Sign up Page

The modern page where you register and log in is also stored by all users. You can modify, delete or exit user's data. Validator, Guards and Routing are used.
